26 January 2018

Mongolian government supported Ulaanbaatar city administration to organize an exhibition called Technological Solutions for Reducing Air Pollution, which was held at the State Palace on January 3, 2018 to meet with companies working on solutions to reduce Ulaanbaatar city air pollution.

Our company had an opportunity to meet with Khurelsukh Ukhnaa, Prime Minister of Mongolia and Batbold Sundui, Ulaanbaatar City Mayor and Enkhbold Miyegombo, Chairman of the State Great Hural of Mongolia and Bat-Erdene Jadamba, Minister of Road and Transport Development to briefly introduce them our Nuurst Coal-to-Gas project, which could be one of the most effective ways to reduce Ulaanbaatar city air pollution.

Khurelsukh Ukhnaa, Prime Minister of Mongolia, noted that public participation is vital for reducing air pollution together with the government in implementing complex solutions.
