Tian Poh Receives Government Support For Coal to Gas Project

Tian Poh Resources Ltd (TPO) is pleased to advise that it has received support from the Mongolian Ministry of Energy to progress a feasibility study for TPO's proposed coal to gas project intended to supply gas to Ulaanbataatar.

TPO owns the Nuurst Coal Deposit in Mongolia, which has a JORC (2012) 478 million ton resource approximately 100km from Ulaanbaatar. TPO is advancing a coal to gas project in which coal from its Nuurst Coal Deposit would be gasified to supply residents of Ulaanbataatar.

On the 14th of July 2016 the Singapore Cooperation Enterprise ("SCE") and the Mongolian Energy Development Centre ("EDC") signed a memorandum of understanding to identify opportunities for the investment and development of coal-to-electricity, coal gasification, and electricity and gas distribution projects in Mongolia. TPO's 100% owned subsidiary, Poh Golden Ger Resources Pte Ltd, was introduced by the SCE to the EDC as a company with interest exploring opportunities in the energy sector in Mongolia, and has presented a coal gasification plan to the Mongolian Ministry of Energy utilizing coal sourced from TPO's Nuurst Coal Deposit.

The Mongolian Ministry of Energy has requested a detailed feasibility study be prepared which includes the sources of electricity and heating, and the supporting infrastructure.
